Last updated: June 17, 2026

## Research Interests

---

My research focuses on uncertainty quantification in complex systems that arise in computational science and engineering, with an emphasis on deep generative modeling. By integrating deep learning and scientific computing, my group develops scalable sampling techniques for high-dimensional distributions. This work enables Bayesian inference in large-scale PDE-based inverse problems (e.g., seismic and medical imaging) and provides a principled framework for building reliable, uncertainty-aware AI models for real-world applications.

## Academic Appointments

---

**University of Central Florida**  
Tenure-Track Assistant Professor  
Department of Computer Science

August 2025 – Present  
Orlando, FL, USA

**Rice University**  
Simons Postdoctoral Fellow  
Department of Computational Applied Mathematics & Operations Research  
Jointly hosted by Maarten V. de Hoop and Richard G. Baraniuk

August 2022 – July 2025  
Houston, TX, USA

## Education

---

**Georgia Institute of Technology**  
Ph.D. in Computational Science and Engineering  
Advised by Felix J. Herrmann

August 2022  
Atlanta, GA, USA

**University of Tehran**  
M.Sc. in Geophysics

March 2016  
Tehran, Iran

**Sharif University of Technology**  
B.Sc. in Electrical Engineering

August 2013  
Tehran, Iran

## Publications

## Awards

---

### Future Faculty Fellows Award

Rice University, George R. Brown School of Engineering and Computing  
[link]

June 2024  
Houston, TX, USA

## Selected Research Proposal Experience

---

### Scientific ML-supported subsurface characterization in physical function spaces

Awarded, 2024

- ▶ Funding Source: Occidental Petroleum Corporation, PI: Maarten V. de Hoop
- ▶ **Contributions:** Developed ideas and contributed to writing for two of the four research thrusts entitled “Score diffusion, nonlinear operators, and uncertainty quantification in function spaces” and “Unsupervised, factorial data decomposition and hidden signals: Reservoir characterization below salt, denoising, and monitoring”

### Learning and forecasting complex fault dynamics – Predictability of earthquakes

Not funded, 2024

- ▶ Funding Source: National Science Foundation, PI: Maarten V. de Hoop
- ▶ **Contributions:** Developed ideas and contributed to writing for one of the four research thrusts entitled “Structure in data, clustering, lattice theory, and diffusion models”

### Exploring the local geometry of deep networks

Awarded, 2023

- ▶ Funding Source: Office of Naval Research (DURIP), PI: Richard G. Baraniuk
- ▶ **Contributions:** Developed ideas and wrote research objectives for one of the three research thrusts entitled “The geometry of deep probabilistic models”

### A deep-learning framework for stable, interpretable, and uncertainty-quantified hybrid modeling of multi-scale complex systems

Not funded, 2023

- ▶ Funding Source: Department of Energy, PI: Pedram Hassanzadeh
- ▶ **Contributions:** Coordinated efforts within Richard G. Baraniuk’s group (a co-PI) to develop and write research objectives for one of the four research thrusts entitled “Spline operator-based analysis of Deep neural networks”

### Topological deep learning, causal inference, and data-driven forecasting for subsurface multiscale multiphysics systems

Awarded, 2022

- ▶ Funding Source: Department of Energy, PI: Maarten V. de Hoop
- ▶ **Contributions:** Led the effort to write the annual progress report

## Mentoring Experience

---

### University of Central Florida

Orlando, FL, USA

Departments of Computer Science & Electrical and Computer Engineering

- ▶ Banafsheh Adami [link] Fall 2026 (incoming)  
CS Ph.D. Student — co-advised with Alain Kassab
- ▶ Anirudh Thatipelli [link] 2025 – Present  
CS Ph.D. Student — Ph.D. advisor
- ▶ Davide Sabeddu [link] 2025 – 2026  
ECE Ph.D. Student — Advised on the development of methods for mitigating overfitting in generative models and co-authored a paper (A. Siahkoohi and Sabeddu, 2026)

### Rice University

Houston, TX, USA

Department of Computational Applied Mathematics & Operations Research

- ▶ Jeffrey J. Sam [link] 2024 – 2025  
M.Sc. Student — Advised on the design and implementation of experiments and co-authored a paper (Thatipelli et al., 2026)
- ▶ Paul M. Mayer [link] 2022 – 2025

Ph.D. Student — Advised on the development of methods and software for two projects and co-authored two papers (Luzi et al., 2024a; Mayer et al., 2024)

### Georgia Institute of Technology

Atlanta, GA, USA

School of Computational Science and Engineering

- ▶ Rafael Orozco [\[link\]](#) 2020 – 2022  
Ph.D. Student — Advised on the development of methods and software for main Ph.D. thesis and co-authored four papers (Orozco et al., 2021, 2023b,c, 2025)
- ▶ Mi Zhang [\[link\]](#) 2019 – 2020  
Visiting Ph.D. Student (China University of Petroleum-Beijing) — Advised on the development of methods and software for a project and co-authored a paper (Zhang et al., 2020)

## Teaching Experience

---

### University of Central Florida

Orlando, FL, USA

Department of Computer Science

- ▶ Algorithms for Machine Learning [\[link\]](#) Fall 2026  
Instructor of Record
- ▶ Sampling Methods for Uncertainty Quantification [\[link\]](#) Spring 2026  
Instructor of Record
- ▶ Algorithms for Machine Learning [\[link\]](#) Fall 2025  
Instructor of Record

### Rice University

Houston, TX, USA

Department of Computational Applied Mathematics & Operations Research

- ▶ Numerical Analysis Fall 2024  
Substitute Instructor (12 lectures)
- ▶ Numerical Analysis I Fall 2022  
Substitute Instructor (18 lectures)

### Georgia Institute of Technology

Atlanta, GA, USA

School of Computational Science and Engineering

- ▶ Computational Foundations of Machine Learning Spring 2022  
Teaching Assistant
- ▶ Imaging with Data-Driven Models Fall 2019  
Teaching Assistant
- ▶ Numerical Analysis I Fall 2018  
Teaching Assistant

### Sharif University of Technology

Tehran, Iran

Department of Electrical Engineering

- ▶ Digital Signal Processing Spring 2011  
Teaching Assistant
- ▶ Signals and Systems Spring 2011  
Teaching Assistant
- ▶ Linear Algebra Spring 2010  
Teaching Assistant
- ▶ Electrical Engineering: Principles and Laboratory Fall 2009  
Teaching Assistant
